Introduction

UNITED ENGINEERING CONSULTANTS, INC.

UNITED ENGINEERING CONSULTANTS, INC., (UNITED) is a full service environmental and geotechnical consulting firm specializing in Phase I assessments for property transfers and expansions, Phase II investigations for surface and subsurface releases, including Leaking Underground Storage Tanks (LUST), subsequent exsitu and insitu treatment methods, subsurface exploration and foundation evaluations for commercial and residential construction, slope stability analysis and construction materials testing.

The following is brief list of UNITED's Scope of services:

Environmental Services

- *Phase I Environmental Site Assessments
- *Aboveground Storage Tank (AST) Removal and Assessments
- *Underground Storage Tank (UST) Removal and Assessments
- *Phase II Investigations including the advancement of
Soil Borings and the Installation of Groundwater Monitoring Wells
- *Soil and Groundwater Remediation
- *Brownfields
 - Site Assessment Grants (SAG)
 - Public Informational Meetings
- *Pesticide Investigation and Remediation
- *Site Closure and Restoration
- *Regulatory Support
 - RCRA
 - CERCLA
 - PECFA
 - DERF

Geotechnical Services

- *Site Feasibility Studies
- *Shallow and Deep Foundation Evaluation for commercial and residential construction
- *Existing and New Pavement Evaluation
- *Slope Stability and Analysis

Construction Material Testing

- *In-place Soil Density Testing
- *Field Concrete placement including air content, slump and temperature testing
- *Laboratory soil and concrete testing including, but not limited to, moisture content, grain size analysis and Atterberg limits

Stormwater Management

- *Stormwater Pollution Prevention Plans (SWPP)
- *Surface Infiltration Evaluation
- *Erosion Analysis and Control

Certifications

- * Timothy J. Anderson is a registered Professional Engineer in the State of Wisconsin and is certified by the State of Wisconsin Department of Industry, Labor, and Human Relations (DILHR) Safety & Building Division, for compliance with Administrative Rule ILHR 10 regarding site assessments, the removal and cleaning of USTs. In addition, Mr. Anderson has completed the 40 hour Hazardous Waste Operations and Emergency Response (HAZWOPER) training course with annual updates and 8 hour Confined Space Entry training courses.

- * Scott J. Brockway is a registered Professional Geologist in the states of Wisconsin and Illinois and is certified by the State of Wisconsin DILHR Safety & Building Division, for compliance with Administrative Rule ILHR 10 regarding site assessments. In addition, Mr. Brockway has completed the 40-hour Hazardous Waste Operations and Emergency Response (HAZWOPER) training course with annual updates, an eight hour site safety management course and a CERCLA regulation course.

- * United is registered by the State of Wisconsin, to provide professional level engineering and/or hydrogeological services for Petroleum Environmental Cleanup Fund Act (PECFA) eligible sites.

- * United is authorized by the Department of Regulation and Licensing of the State of Wisconsin to practice Professional Engineering services in accordance with the provisions of the Wisconsin Statutes.

General Conditions / Fee Schedule

GENERAL CONDITIONS

Proposals, Time Schedules and Agreements are based, in part, on the information provided by the Client. If the information supplied by the Client is incomplete or inaccurate, and/or site conditions are encountered which are not that which were indicated by the Client, and/or the Client requests a change from the original scope of work established by the Proposal, then a written amendment to the Agreement, adjusting the Proposal, Time Schedules, and/or costs will be prepared by UNITED as soon as time permits.

It shall be the responsibility of the Client to notify UNITED of any known or suspected hazardous substances which may affect the work that is to be performed or the safety of the public and/or UNITED employees.

Payment is due and payable no later than thirty (30) days from the date of invoice. Delinquent payments will be assessed a one and one half percent (1.5%) additional charge per month on the unpaid balance. Should it be necessary to force collection of any monies due, the non-prevailing party shall be responsible for all costs connected therewith, including reasonable attorney's fees.

As required by the Wisconsin Construction Lien Law, United hereby notifies owner that persons or companies furnishing labor or materials for the construction on owner's land may have lien rights on owner's land and buildings if not paid. Those entitled to lien rights, in addition to the undersigned United, are those who contract directly with the owner or those who give the owner notice within sixty days after they first furnish labor or materials for construction, and should give a copy for each notice received to the mortgage lender, if any. United agrees to cooperate with the owner and the owner's lender, if any, to see that all potential lien claimants are duly paid.

Either party may terminate the Agreement at will, with 7 days written notice. At the time of termination, UNITED shall be paid for services and materials supplied to date.

Consultant warrants that its services are performed, within the limits prescribed by its clients in a manner consistent with that level of care and skill ordinarily exercised by members of the same profession currently practicing in the same locality under similar conditions.

STANDARD FEE SCHEDULE

I. FIELD AND PROFESSIONAL SERVICES

Professional Engineer	\$95.00 \ hour
Professional Geologist	\$95.00 \ hour
Hydrogeologist	\$85.00 \ hour
Field Engineer	\$65.00 \ hour
Field Geologist	\$65.00 \ hour
Environmental Technician	\$45.00 \ hour

II. OFFICE SERVICES

Computer Aided Drafting	\$45.00 \ hour
Secretarial	\$35.00 \ hour

III. EQUIPMENT

Photoionization Detector	\$75.00 \ day
Combustible Gas Indicator	\$75.00 \ day
Dissolved Oxygen Meter	\$45.00 \ day
pH, Conductivity, Temperature Meter	\$25.00 \ day
Groundwater Level Indicator	\$25.00 \ day
Water Quality Meter	\$125.00 \ day

IV. MISCELLANEOUS EXPENSES

Mileage	\$00.50 \ mile
---------	----------------

Other services and hourly rates available upon request. Charges for special equipment not included herein will be quoted upon request. A per diem charge of \$60.00 per day, per person will be billed as applicable.

Resumes

TIMOTHY J. ANDERSON
PROFESSIONAL ENGINEER

EDUCATION: B.S. in Civil and Environmental Engineering
University of Wisconsin - Madison, 1988

LICENSES AND CERTIFICATIONS:

License(s):	Professional Engineer: Wisconsin
Certification(s):	Hazardous Waste Operations and Emergency Response (HAZWOPER) - 40 Hour Course (with annual updates) 8-Hour Confined Space Entry Course Certified State Assessor and Tank Remover/ Cleaner #04194 American Society of Civil Engineers - Member

TECHNICAL EMPLOYMENT HISTORY:

April 1997 to Present	-	United Engineering Consultants (UEC), Inc. Principal
April 1995 to November 1996	-	Fischer Environmental, Inc. Milwaukee Branch Manager
October 1990 to April 1995	-	Midwest Engineering Services, Inc. Branch Manager - Appleton Construction Services Department Manager - Waukesha
June 1988 to October 1990	-	Professional Services Industries, Inc. Project Manager - International Terminal - O'hare Airport - Chicago, Illinois Division Manager - Structural Steel/NDT Department

SYNOPSIS: Mr. Anderson has extensive experience in various environmental and geotechnical consulting areas including underground storage tank removal and assessments, Phase I environmental site surveys, Phase II field investigations, subsequent remediation planning and coordination, directing geotechnical field studies and preparing related engineering reports. Additional experience in the coordination and performance of field inspections and report preparation and review for construction monitoring and materials testing services. Responsibilities include the above mentioned geotechnical and environmental consulting services as well as overall management and administrative and

marketing duties for UEC.

SCOTT J. BROCKWAY
PROFESSIONAL GEOLOGIST

EDUCATION: A.A. Liberal Arts
Rock Valley College, Rockford, Illinois, 1983

B.S. Geology
Illinois State University. Normal, Illinois, 1987

LICENSES AND CERTIFICATIONS:

License(s): Professional Geologist: Wisconsin and Illinois

Certification(s): Hazardous Waste Operations and Emergency Response (HAZWOPER) - 40 Hour Course (with annual updates)
8-Hour Site Safety and Management Course
Certified Site Assessor, No. 04750
American Institute of Professional Geologists

TECHNICAL EMPLOYMENT HISTORY:

July 2005 to Present - United Engineering Consultants, Inc.
Senior Consultant, Project Manager

June 1992 to July 2005 - Tetra Tech EM Inc.
Senior Scientist, Project Manager

July 1991 to May 1992 - Midwest Engineering Services, Inc.
Staff Geologist

April 1989 to May 1991 - Warzyn Engineering, Inc.
Staff Geologist

September 1987 to April 1989 - Engineers International, Inc.
Environmental Geologist

SYNOPSIS: Mr. Brockway has extensive experience in various environmental and consulting areas including: underground storage tank removal and assessments; phase I environmental site assessments; phase II site investigations; technology evaluation; insurance cost recovery; regulatory support and compliance inspections; work plan and report preparation; and project management, including fiscal planning and reporting. Responsibilities include the above mentioned environmental consulting services as well as project management and business marketing duties for UEC.
